

PROGRAM REVIEW WORKSHOPS

Have questions about Program Review?

Need support working on the self-study?

We've got options!

Workshops: these will provide information and explanation, with each session devoted to a particular section of the self-study. We'll run two cycles of section-specific workshops, with a few general overviews in the mix.

Work Sessions: these will be opportunities for faculty, on their own or in teams, to drop in and work on self-studies, asking questions and getting feedback as needed.

All sessions will be held in the TEC, with workshops in the computer lab, and work sessions in the lab or conference area.

Jan Chadwick, Program Review Committee Chair, will be available during all dates below.
